

Bula! In just over 10 years, the Water Authority of Fiji (WAF) has come a long way.

The 2013 Fijian Constitution guarantees the right of every Fijian to clean and safe water in adequate quantities, and accessible and adequate sanitation facilities. The Water Authority of Fiji's commitment to this vision is something that we take great pride in.

We are responsible for providing access to quality drinking water and wastewater services to over 154,000 residential and non-residential metered customers in the urban areas of Fiji and also setting up water supply systems in rural areas.

Our current water and wastewater network constitutes more than 4932 kilometres of pipes, and we supply more than 134,000 megalitres of treated water annually to homes and businesses all across Fiji.

Our service covers 18,274 square kilometres of the 332 islands in the Fiji archipelago of which 110 are inhabited. As of 2021, we are in our 11th year of operation.

Knowing that over 829,150 Fijians, comprising of thousands of families and businesses around Fiji, rely on us for their essential daily need for water, we take our service and mandate very seriously.

Vinaka.

If you have any inquiries or if you'd like to write about us, email our communications team at peni.shute@waf.com.fj or call on +679 9104843. We look forward to hearing from you!

Our Vision is “Clean Water and Sanitation for a Better Life.”

Our Mission - We are committed to optimising water and wastewater services through:

Resilience
Innovation
Capacity Building
Engaging Stakeholders
Modernisation
Being Environmentally Focussed
Safe Working Practices

Our Key Values

- W - we do the right thing.
- A - accountability: we are accountable for what we say and do.
- T - team: we work as one team.
- E - energy: we bring positive energy to whatever we do.
- R - we respect our fellow workers, customers and other utilities.
