Water carting is undertaken in compliance with World Health Organization Standards.

Water provided via water carting is strictly for drinking and cooking.

Collect as much water as you can when it rains for use in tasks such as washing, general cleaning, and flushing your toilet.

WAF provides 2000 litres of water free of charge per fortnight, additional requirements will be at a cost.

Please note that all requests for water carting must be made at least 3 days in advance of the scheduled dates.

Customers must ensure to take note of service order number for reference and follow-ups. For borehole maintenance and water carting issues please contact:

Water Carting Co-ordinators Central: 910 4992
